

## INSTAL-LUBLIN S. A.

Instal-Lublin is one of the largest installation companies in Poland, specializing in services related to the implementation of work in industrial, residential and public facilities. The scope of our services includes the design and assembly of ventilation, air conditioning, heating, technological and sanitary systems. INSTAL-LUBLIN specializes in services related to the implementation of work in all kinds of facilities:

1. industrial facilities
  - power plants/energy
  - cement plants
  - sugar factories
  - other production facilities
2. commercial facilities and office blocks
3. utility infrastructure
4. sewage treatment plants.

We have our own production facility, offering ventilation products and steel structures, with the production capacity of 7 000 m<sup>2</sup> of rectangular ducts per month.
